The 7000 and 9000 Series range suits door thicknesses between 32mm and 50mm and is available in passage, dummy and privacy functions. The privacy leversets, with integral privacy latch, are designed to suit bedroom or bathroom door applications. The passage sets are suitable for interior non-locking doors. The Schlage 7000 and 9000 series is tested to 150,000 cycles to guarantee reliability and peace of mind.
